

MCQ

1. What is the main function of RNA?

- A** Acting as a genetic material
- B** Adapter molecule
- C** Messenger molecule
- D** Catalytic roles

MCQ

2. Who first identified DNA in the nucleus and named it nuclein?

- A** Robert Brown
- B** Friedrich Miescher
- C** Altmann
- D** Chargaff

MCQ

3. Arrange the following scientists in chronological order of their contribution:

1. Altmann 2. Robert Brown 3. Friedrich Miescher

A $2 \rightarrow 3 \rightarrow 1$

B $3 \rightarrow 2 \rightarrow 1$

C $1 \rightarrow 2 \rightarrow 3$

D $2 \rightarrow 1 \rightarrow 3$

MCQ

4. Which one of the following statements is correct?

- A** DNA is the genetic material in all organisms.
- B** RNA is only a messenger molecule.
- C** RNA may act as genetic material in some viruses.
- D** DNA performs catalytic functions.

MCQ

5. Who renamed nuclein as nucleic acid due to its acidic nature?

- A** Altmann
- B** Robert Brown
- C** Watson
- D** Griffith

MCQ

6. RNA acts as the genetic material in:

- A** All organisms
- B** Most organisms
- C** Some viruses
- D** Bacteria only
